

Tailor Made Workshops for Capacity Building

Improve your team's Leadership, Empowerment,
Group dynamics and Project implementation.

In a complex and diverse world, the long-term sustainability of our projects & building teams of empowered people, who share trust and responsibilities, can be a challenging task.

*AGILE PROJECT DESIGN
RELATIONSHIPS & TRUST
LEADERSHIP & SYSTEMS*

It is therefore necessary to develop innovative, motivational and efficient strategies, that will ease project implementation.

If you would like your organization to be high performing, as well as creative and with empowered leaders; most probably these trainings are for you:

- 1) Agile project design and management tools:** Create authentic team's shared visions. Achieve effective and efficient task management. Integrate intuition and logic, emotions and rational thinking in project planning. Work with chaos and unpredictability; and learn to enjoy, have fun and celebrate all the way.
- 2) Group Dynamics and Conflict Resolution:** Create organisations as living systems with collective intelligence. Knowledge and tools on best decision making processes. Navigate team's conflicts and overcome blockages. Discover rank, power and its impacts on team member's relationships.
- 3) Leadership, Empowerment and Participatory Processes:** Your team's leadership journey and their talents and gifts. A participatory leadership that generates team's empowerment and motivation. Communication and feedback. Build group trust.

We offer tailor made workshops and open talks according to your organisation needs.

The tools and methods used in the workshop come from: Art of Hosting, Processwork, Dragon Dreaming, Facilitation Institute (IFAACE), Non Violent Communication, U-Theory, Spiral Dynamics, Scrum & Agile, Business Model Canvas, Framework for Strategic Sustainable Development (FSSD), Deep Ecology and The work that Reconnects,

We are inspired by Buddhism, Taoism, Australian Aborigines, and thinkers like Scott Peck, Otto Scharmer, John Croft, Gandhi, Albert Einstein, Paolo Freire, Carl Jung, Joanna Macy, Arnold Mindell, Marshall Rosenberg, Don Beck, Frederic Laloux..
